Agenda

Changes in reporting of external statistics data collection

ROLE OF THE CENTRAL BANK, EXTERNAL STATISTICS DATA AND MOTIVATION FOR CHANGES

The OeNB's role in collecting external statistics

All-important data: the OeNB's statistical data warehouse

Data...

- feed into numerous statistics and indicators (e.g. to calculate Austria's GDP) = data are crucial for a common European economic and monetary policy
- inform the assessment of Austria's competitiveness
- indicate Austria's appeal as a business location
- help potential foreign investors decide on investments in Austria
- feed into statistics that drive export strategies and international negotiations
- offer valuable information for market players' activities worldwide and support the monitoring of foreign markets by providing detailed information e.g. by country, market segment/sector as well as funding

Comprehensive data offerings by the OeNB:

- Tables (dynamic queries)
- Publications
- Press releases
- Press conferences

Statistics Hotline
(+43-1) 404 20-5555

<https://www.oenb.at/en/Statistics/Standardized-Tables/external-sector.html>

Why new reports?

New (international) requirements

- Have been considered as much as possible
- ⇒ reduces need for amending the reporting regulation

More clarity and details in reporting requirements

- Helps reduce the need for queries
- Improves data quality

Multidimensional, integrated concept

Grafik by Showeet.com

Lessons learned

- Existing reporting system
- On-site visits of reporting agents
- Survey of reporting agents

Integration/merging of reports

Basis for high-quality external statistics and forward-looking data offerings

DETAILS TO THE NEW REPORTS & EXAMPLES

PART 1: REPORTS INCLUDING MASTER DATA (ONLINE)

Changes in reporting of external statistics data collection
MASTER DATA (ONLINE)

Master data: AWBET, AWBES, AWFUV (1)

What is new?

- Master data are input centrally for AWBET, AWBES and AWFUV reports
 - Data are transferred and accessed via the OeNB portal (www.myoenb.com) – “MeldeWeb” application (which replaces the “ZABIL-Online” application)
 - Only mandatory fields are displayed and need to be filled in
 - Online forms automatically include any reported master data
 - Master data must be corrected by reporting cutoff dates
- Only then: can the reports be submitted

Master data: AWBET, AWBES, AWFUV (2)

- Distinction between *current* and *historically correct* master data
- Specification of a national identification criterion (e.g. national business register identifier) when new foreign entities are first recorded (in line with the ECB list of national identifiers)
- Specification of border-crossing identifier for controlling indirect investments
- *Relations* between reporting agents and counterparties

Foreign counterparty within the same group				Foreign counterparty not within the same group

AWWPI TEMPLATE

DOMESTIC CUSTODY ACCOUNTS

AWWPI: Domestic custody accounts (1)

What has to be reported?

- Securities transactions and securities portfolios held or managed on behalf of investors
- Own-account holdings of securities

→ MFIs, which are subject to reporting in line with the MONSTAT securities cube (WPSC) based on the “smart cube” data model, are deemed to have met the reporting obligation related to own-account holdings of securities.

AWWPI – main characteristics

Replaces:	P1	
Reporting code:	AWWPI	
Reporting threshold:	none	
Reporting agents:	<ul style="list-style-type: none"> • MFIs (excluding money market funds) • Residents holding or managing securities on behalf of investors (custody business – Article 1 para. 1 no. 5 Austrian Banking Act)

AWWPI: Domestic custody accounts (2)

What is new?

- Custodians are grouped by ESA sector (which replaces “report category”)
- Specification of dominance code
- SPEs and Republic of Austria separately with OeNB ID numbers
 - Information is included in standardized master data
- Gross instead of net transactions, no longer necessary to specify accrued interest separately
- Canceled: of which position “short stocks”
- Canceled: reporting of assets held in custody for domestic mutual funds
- Nominal value or no. of securities (code) integrated into type of asset
- Specification of number of custodians (only for domestic households and private foundations)

1234	31.03.2022	AWWPA	STAND	AT0000123456	EUR	DEPOT	DE	5200000	5000000		Verkauf

You are transferring the security to Austria or you are selling it completely/so much that the new stock < EUR 5 million:

Meldeobjekt	Meldestichtag	Erhebungscod	Konzeptcode	WK	NOMWG	VERWART	LDV	WA:MW	WA:NN	WA:STK	Kommentar
1234	30.06.2022	AWWPA	STAND	AT0000123456	EUR	DEPOT	DE	0	0		auf Inlandsdepot übertragen

Alternatively, you may file a nil report (MeldeWeb) or you file a voluntary report (possible for amounts under EUR 5 million).

AWWPA: Custody accounts abroad, own holdings of securities and crypto assets (7)

Report example 3:

- You are buying an equity interest in a domestic stock corporation that has a securities identification number (ISIN). Your equity interest is recorded in the shareholders' register, but no physical stocks are issued.

Meldeobjekt	Meldestichtag	Erhebungscode	Konzeptcode	WK	NOMWG	VERWART	LDV	WA:MW	WA:NN	WA:STK	Kommentar
1234	31.12.2021	AWWPA	STAND	AT0000123456	EUR	EIGEN	AT	3000500		100	Beteiligung

Equity interests in a domestic stock corporation without an ISIN do not have to be reported.

Exceptions:

Insurance companies that report equity interests as securities under Solvency II using an internal securities identification number.
