

Support table to construct maps including Bosnia and Herzegovina

The OeNB Euro Survey includes regional divisions according to NUTS2 and NUTS3 following [Background - NUTS - Nomenclature of territorial units for statistics - Eurostat \(europa.eu\)](https://ec.europa.eu/eurostat/tgm/table.do?tab=table&init=1&language=en&plugin=1).

As Bosnia and Herzegovina has no official NUTS classifications, instead regions were defined according to Hijmans (2015)¹. The following table shows how NUTS2 and NUTS3 codes in the OeNB Euro Survey correspond to ID variables in Hijmans (2015).

The information allows constructing regional maps including Bosnia and Herzegovina.
