FINAL: OeNB Euro Survey Master Questionnaire Fall 2025

This document contains all questions asked to respondents in the survey wave of fall 2025 of the OeNB Euro Survey in English.

- Questions or parts of questions highlighted in yellow indicate questions or parts of questions that were deleted, rephrased or that have been newly added compared to the master questionnaire fall 2024. Please pay extra attention to these questions.
- Questions highlighted in green have been copied from questionnaires prior to 2024. Please use the same translations as then and check them carefully.
- Due to euro adoption, questions highlighted in light blue were not asked in Bulgaria. Two questions were only asked in Bulgaria. They are highlighted in pink.
- Questions, that are highlighted in grey are not available for outside users.

We provide the data of all survey waves to external researchers (except some questions marked in grey – see above). The penultimate wave is made available once the data quality check of the most recent wave is finalized (usually from November onward, i.e. wave 2025 is available from November 2026 onward). Information on how to access the data can be found on our website (Central, Eastern and Southeastern Europe - Oesterreichische Nationalbank). On the website you can also find additional information, e.g., a grid of questions per wave and a description of ex post harmonized socio-demographic variables included in the dataset.

FINAL: OeNB Euro Survey Master Questionnaire Fall 2025

RANDOMIZE QUESTIONNAIRE INTO TWO GROUPS

[FOR INTERVIEWER: Read out the following introduction]:
The next set of questions is about financial decisions of individuals. These questions were commissioned by a public European institution and are being asked in a total of nine countries. The purpose of this regular survey is academic research and safeguarding of (financial market) stability. Your answers help researchers to understand personal saving and borrowing decisions – so this makes your input very important. We can assure you that your answers will be treated confidentially and will never be used for any private or marketing purpose.

Let me first ask you some basic questions about you and your household.

[FOR INTERVIEWER: Please make sure, that there is an entry for each question. If respondents hesitate to answer, tell respondents that it is ok, if they do not want to answer, but it would be important to know, whether they do not want to answer or whether they really do not know. As explained in the interviewer guidelines, remind respondents at the beginning of each section that they also think about cash/savings/loans they have together with their partner.]

[FOR INTERVIEWER: USE SHOW CARD ABOVE. EXPLANATIONS OF ITEMS FOR THE VARIOUS BANK ACCOUNTS, PAYMENT CARDS AND OTHER ASSETS:
- A **current account** is a common type of bank account. It is set up at a bank or post office in order to receive your wage, pension etc. and to transfer money to other accounts.
- A **savings deposit** is money deposited at a bank in order to earn interest. Savings deposits are investments and are not used for payment purposes. Savings deposits can be due on demand or with a certain term during which deposits cannot be withdrawn.
- A **wage card** is linked to a current account at a bank to which your employer transfers the salary or wages at regular intervals. You can use the wage card to withdraw cash from ATMs.
- A **debit card** is a payment card linked to a current account that allows you to make purchases without using cash. Whenever you pay with your debit card, the amount will be directly deducted from your account. You may also use your debit card to withdraw cash from ATMs.
- A **credit card** enables you to make purchases and to withdraw cash on credit up to a prearranged ceiling. The credit granted can be settled in full by the end of a specified period or can be settled in part (in the latter case you pay interest).]
- A **life insurance** is a contract with an insurance company. The life insurance company pays out an amount of money if circumstances occur that are set out in the policy.
- A **mutual fund** is a collective investment scheme, operated by an investment company, which enables you to invest in a diversified portfolio of shares, bonds and other securities. Shares are issued and redeemed on demand, based on the fund's net asset value at the end of each trading day.
- A **stock** is a fractional share in the ownership of the corporate company. The value of a stock is linked to the value of the company and can fluctuate.
- A **pension fund** is a savings instrument which pays retirement benefits in the future. It is managed by an independent trustee into which a company and voluntarily the employee make periodic contributions.
- A **bond** is a fractional share in a loan to a company or government (debt security). It usually earns a fixed interest over a fixed period of time.
- **A savings plan with a building society** is a savings contract that usually features a fixed term and penalties if the money is withdrawn before the end of the term. At maturity, i.e. at the end of the savings phase, the saver may choose to take out a real estate loan on favorable terms or to have the saved amount paid out. Often, such savings plans are subsidized by the government. (REMARK: this explanation is only applicable in Czechia and Hungary.)
- A **crypto currency** is an asset that exists only digitally or virtually and that is secured by cryptography. The most famous example is Bitcoin. A **stablecoin** is a crypto asset whose value is tied to the value of a commodity, financial instrument or national currencies.
- **Other assets**: gold, jewellery, gem stone, artworks, etc.

*- **Microfinance institutions** provide small loans as well as current and savings accounts to households and small businesses, who are usually excluded from banking services, possibly socially marginalized or geographically more isolated.*
*- **Pawnshop or pawnbroker**: A store which offers loans in exchange for personal property as equivalent collateral. If the loan is repaid in the contractually agreed time frame, the collateral may be repurchased at its initial price plus interest. If the loan cannot be repaid on time, the collateral may be liquidated by the pawn shop through a pawnbroker or secondhand dealer through sales to customer.*
*- **Payday lender:** A payday loan is a small, short-term loan from a nonbank lender that typically carries high interest rates and comes due on the next payday. As a security, borrowers must give*

lenders access to their current account or write a check for the full balance (including interest) in advance.

For a definition of categories, see:
http://laborsta.ilo.org/applv8/data/icsee.html
Employer is a person who operates his or her own economic enterprise, or engages independently in a profession or trade, and hires one or more employees. Some countries may wish to distinguish among employers according to the number of persons they employ.
Own account worker is a person who operates his or her own economic enterprise, or engages independently in a profession or trade, and hires no employees.
Contributing family workers are those workers who hold a "self-employment" job (cf. paragraph 7) in a market-oriented establishment operated by a related person living in the same household, who cannot be regarded as a partner, because their degree of commitment to the operation of the establishment, in terms of working time or other factors to be determined by national circumstances, is not at a level comparable to that of the head of the establishment. (Where it is customary for young persons, in particular, to work without pay in an economic enterprise operated by a related person who does not live in the same household, the requirement of "living in the same household" may be eliminated.)

Questions to be completed by the survey institute

A5) Code of Interviewer _____ (format: XX (country-ID) + YYYYYY (Interviewer-ID)

Note: Interviewer codes need to be comparable across survey waves. Furthermore, interviewers who have conducted interviews in previous OeNB Euro Survey waves should use the same code across all survey waves.

(Please note that interviewer identifications are released as a harmonized variable only)

A7) Primary Sampling Unit:

A7a) Numerical PSU, which should be country-specific, i.e. XXYYYY (XX=country-ID, YYYY=PSU); Label: the exact address of the primary sampling unit.
Exact street name, exact village/town/city, exact municipality name (if not the same as village/town/city), *region, country (**separated by commas only**).*

A7b) Variable value: numerical PSU; Label: the exact name of the village/town/city.

- *Please note that villages/towns belonging to a larger municipality should be reported with the exact name of the village/town and not with the name of the larger municipality. **Only** if there is more than one village/town of this name in your country, then add the larger administrative unit (e.g. municipality/province/region) in the label, **after** the name of the village/town.*
- *Furthermore, for capital cities or major cities consisting of several boroughs/districts: please report the name of the city and not of the borough/districts.*

A7c) Variable value: numerical PSU; Label: the exact postal code of the village/town.

(Please note that PSU data are released as a harmonized variable only: h_psu)

A8) Region _____

Please deliver two variables:
Variable A8_nuts2 for the regions at NUTS 2 level.
Variable A8_nuts3 for the regions at NUTS 3 level. If not available use other official regions.

(Please note that regions are released as a harmonized variable only: h_region, nuts2, nuts3)

A9) Size of Village / City _____
Please check whether the size of the village/town/city is the same for all individuals residing in the same city. For small villages/towns belonging to a larger municipality, please indicate the number of inhabitants of the village/town, and not the inhabitants of the larger municipality. Furthermore, for capital cities or major cities consisting of several boroughs: the overall number of inhabitants shall be reported, not the number of inhabitants at the borough-level.

(Please note that this variable is provided as h_size in the dataset)
