Ukraine Energy Support Fund

German contribution
of 558 million EUR
(via KfW)

Reform support (GIZ)

Renewables

Electricity markets

Just transition

EU accession

Donation Campaign (GIZ)

34 0000 energy
goods donated,
providing power to
1.4 million people

Financial support

RAMP-UP (planned, via
KfW with EBRD, WB)

JTR-U Fund (EIB)

ROOTS Grant
Programme (GIZ)

~ 1.2 billion EUR emergency support in the energy sector alone since 2022

RAMP UP = Renewables Acceleration and Market Development for
Ukraine Programme

JTR-U = Just Transition and Just Resilience for Ukraine Fund

ROOTS = Regional Opportunities for Just Transition and Sustainability

EP Secretariat activities

Transformation of Energy Sector:

- Support for MinEnergo & other stakeholders in EU accession related energy reforms
- Key topics: electricity markets, network codes and guidelines, renewables integration
- Examples:
 - Analysis on grid codes compliance with EU regulation
 - Capacity Building related to implementation of specific network codes in anticipation of electricity market coupling
 - Trainings on capacity mechanisms

Ukraine and the EU launched the screening of Ukrainian legislation as part of EU accession talks on July 8, 2025 (Source: [Ukraine and EU Launch Legislative Screening Process for Energy Sector Integration — UNITED24 Media](#))

EP Secretariat activities

Енергетичне Партнерство
Energy Partnership
Ukraine - Germany

Business Cooperation:

- Market assessments for different market segments (wind, solar, storage, heating)
- Quarterly monitoring of legal developments in the energy sector
- Presence at business fairs
- Contact point for German companies interested in entering the Ukrainian market in the energy sector

Market Assessments

Insights into Ukraine's energy market to inform investment and cooperation.

Examples of company engagement in Ukraine

goldbecksolar
plans to install 500MWp solar capacity in Ukraine.

Source: [Golbeck Solar](#), GOLDBECK SOLAR and Green for Growth Fund receive IJGlobal “Frontier Market Award” for Solar Project in Ukraine, March 2026

is developing a 120 MW wind park in Odessa region

Source: [Horizon Capital](#), Horizon Capital announces it acquired a 45% stake in the planned Notus wind park, January 2026

Trade promotion instruments

- Export credit guarantees: [Export Credit Guarantees of the Federal Government](#)
- Investment guarantees: [Garantien für Direktinvestitionen - Investitionsgarantien](#)
- Subsidised loan programme: [UkraineConnect | DEG](#) **NEW**

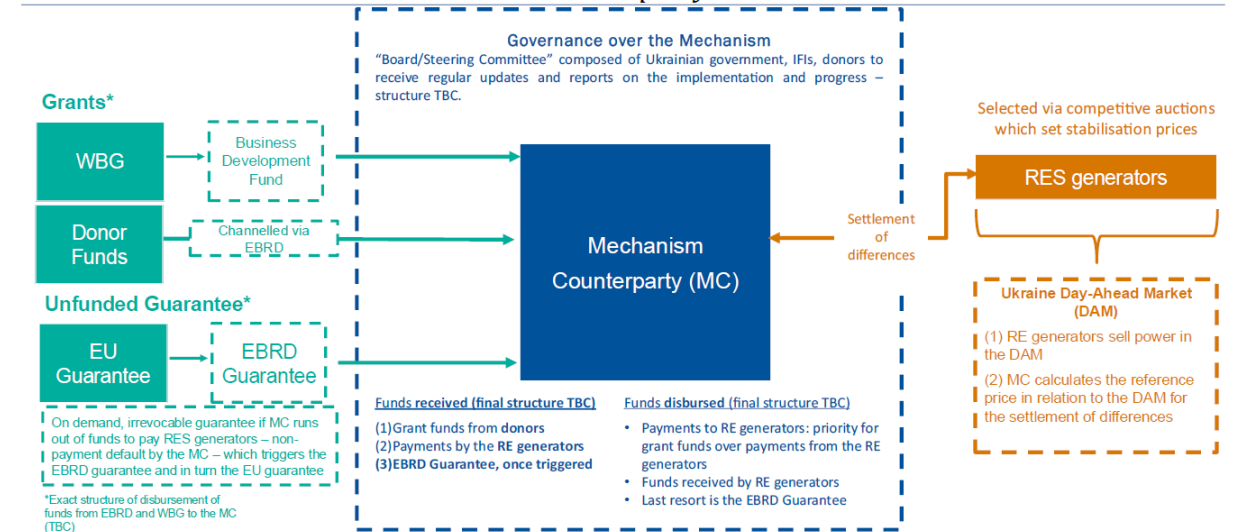

RAMP-UP Programme

- Significant additional solar and wind capacity is required to cover demand with clean and resilient energy
- (Next to war risk), price uncertainty is a major investment barrier for RES investments

⇒ Renewable Acceleration and Market Development for Ukraine Programme (RAMP-UP)

... under development by EBRD and WB with support from the EU, other donors

Figure 1: Implementation Arrangements ,with a third party involved, i.e. the Mechanism Counterparty

- Financial envelope envisaged: 300 million EUR
- Target RES capacity : 1 GW wind, solar
- First auctions still in 2026

Next steps for energy policy in Ukraine

Energy Community, EU accession, Ukraine Facility are the driving forces for energy market reforms in Ukraine

- Electricity market integration (market coupling, public service obligations)
- Renewables permitting, acceleration areas
- Support schemes updating / scaling up (FiT, FiP, RAMP-UP)
- Energy efficiency legislation

winter 26/27!

Following the introduction of the revised methodology for the accession negotiations in February 2020, negotiating chapters are now divided in six thematic clusters

- | | |
|--------------------------------------|---|
| 1 Fundamentals | 4 Green agenda & sustainable connectivity |
| 2 Internal market | 5 Resources, agriculture & cohesion |
| 3 Competitiveness & inclusive growth | 6 External relations |

Thank you for your attention!
