¹ Including nonprofit institutions serving households.

Note: Figures are based on monetary statistics.

¹ Since 2007, the International Monetary Fund (IMF) has published Financial Soundness Indicators (FSIs) for Austria (see also www.imf.org). In contrast to some FSIs that take only domestically-owned banks into account, the OeNB's Financial Stability Report takes into account all banks operating in Austria. For this reason, some of the figures presented here may deviate from the figures published by the IMF. Loan quality¹

As of mid-2017, comparability of data with earlier figures is limited due to several methodological adjustments in data collection.
Lending (net lending after risk provisions) to nonbanks by all fully consolidated bank subsidiaries in CESEE.
The transfer in ownership of UniCredit Bank Austria AG's CESEE subsidiaries to the Italian UniCredit Group limits the comparability of figures as of end-2016.
Gross-border lending to nonbanks and nonfinancial institutions in CESEE according to monetary statistics.
